25X1 13. (Confidential - LLM) Called John Swearingen, Senate Rules and Administration Committee staff, and told him that a check of our records did not indicate that he held a current security clearance and I suggested he go either directly to DOD or the FBI to update his clearances in connection with his taking custody of the Watergate material in the vault of the Joint Committee on Atomic Energy. Swearingen asked if we could give him a contact point in DOD and FBI. I said I was sure we could do this and that I would check. [] will follow up.

25X1 Swearingen called later and advised that he had learned that he had a DISCO clearance as recently as 1973. I told him we would check further but I still think it would be wise for him to make sure his security clearance is updated. [] will follow up on this also.

14. (Internal Use Only - LLM) Called Jim Oliver and George Gilbert, ~~OMB~~ and reviewed with them the handling of the requirement for the Director's views on H. Res. 205. Both agreed that in view of the high level handling that OMB clearance would not be needed but they would appreciate a copy of the Director's reply.

25X1 With respect to H. Res. 72 (Holtzman amendment) on the domestic activities report to the President, I explained that although the House Armed Services Committee had reported adversely and the resolution was directed to the President, the Committee staff still wanted to have the Director's views for their record. It was agreed that we would coordinate those views with OMB. [] is handling.

25X1 15. (Confidential - LLM) [] NIO/SEA, called and said the classified version of the paper on North Vietnamese aid would be printed Saturday and we discussed the possible handling. It was suggested to [] that if it is approved to release the classified version to our Hill clients that it be included in Monday's NID package which cover all four of our oversight committees and the two foreign affairs committees, and we in this office would then contact the principal staff officers in these Committees to advise who in the Committee had evidenced interest in this subject. [] will tie in with [] on this. 25X1
